

GUIDE TO REVEAL ROULETTE

REVEAL ROULETTE is easy to learn and fun to play.

Thirty-eight tiles are used for each round of play. They are printed with the numbers 1–36, 0, and 00. These tiles are randomly shuffled. Each card represents a number printed on the layout. 18 of the tiles are red, 18 are black, and 2 are green. To start the game, the Reveal Roulette wheel is spun.

Each slot in the wheel contains a unique tile that corresponds to the number on the layout that determines the winner. Once the wheel comes to a stop, the tile will be turned face up exposing the winning number.

Any bets placed on that number (including any combinations involving that number as well as whether or not it was even or odd and red or black) will win.
